

World's first universal AI platform that reads any diagnostic strip — within 20 seconds with 98%+ accuracy

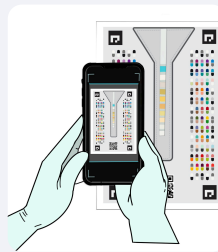

✓ A comprehensive urine analysis solution monitoring Diabetes, Chronic Kidney Disease, and 8 additional health parameters — at just ₹2,000 versus ₹1,00,000 for conventional foreign strip readers

✓ Powered by proprietary BT Card™ calibration system that dynamically compensates for environmental lighting and device variability, delivering clinically validated 98%+ accuracy

Dip

Test strip in urine sample

Automated Scan

Image acquisition through mobile phone camera with reference calibration BT Card™

AI Analysis

Interprets 10+ parameters in less than 20 seconds

Built for Scale

- ✓ Primary Health Centers (PHCs)
- ✓ ASHA & Anganwadi workers
- ✓ Health camps & CSR programs
- ✓ Home & elderly care
- ✓ Veterinary & dairy networks

Uses patent-pending vision-AI technology for strip reading

Secure records with Blockchain

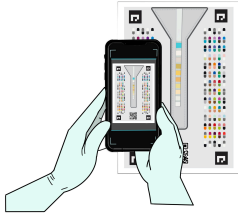

Lab-grade results |
Validated at NABL-accredited
City Imaging, Delhi

Instant Screening . Universal . Affordable . Trusted . Anywhere . Anytime

💡 Vision:

To make India healthier by enabling early, affordable, and accessible screening for every citizen and every village.

	Urine analyzer machines	BillionTests Mobile App
		
Origin	Predominantly foreign brands	100% made in India
Cost	₹1—2 Lakh	<₹ 2,000
Strip Compatibility	Brand-specific only which and costly	Any government-approved test strip
Expendable	Only one type of test	Extendable to 30+ test types
Applications	Human testing only	Extendable to cattle and pets
Accuracy	95%-98%	>98%
