

Name: harsha
Age: 15
Gender: MALE
Reference: Self

Report ID: EBA9876F8IMX1B
Sample type: Urine
Sample collected on: 21/11/2025 10:35 am
Reported generated on: 21/11/2025 10:35 am

Urine Test Strip Analysis Report

Urine Examination

CHEMICAL EXAMINATION

Investigation	Observed Value	Reference range
Specific gravity (SG)	1.020	1.000 – 1.030
pH	7	5.0 – 9.0
Leukocytes (LEU)	15 Leu/muL	Negative
Nitrite (NIT)	Negative	Negative
Protein (Albumin) (PRO)	Negative	Negative
Glucose (Urine) (GLU)	Normal	Negative
Ketone (KET)	Negative	Negative / Trace
Urobilinogen (UBG)	Normal	1 – 12 mg/dL
Bilirubin (BIL)	Negative	Negative
Erythrocytes/Hb (ERY/Hb)	Negative	Negative
Color (COL)	No Color	white

- The urine routine is a screening test.
- Pre-test: first-void, mid-stream urine in a clean sterile container to avoid contamination.
- Negative nitrite does not exclude UTI; interpret with clinical picture.
- Trace proteinuria can occur with exercise, high protein diet, etc.
- False positives for bile pigments, proteins, glucose and nitrites may occur due to certain drugs/dyes.
